

BMP AMERICA® REUSABLE FACE MASK

Registered with the FDA

FEATURES

- Eco-friendly, Durable & Comfortable
- 70% Polyester / 30% Nylon Microfiber Blend
- Single-ply Face Mask, Highly-Breathable
- Hypoallergenic - Latex & Chemical Free
- Washing increases filtration efficiency and softness
- After Washing 10x: PFE ≥98%, BFE ≥94%, Delta P <5*

PFE at 0.1 micron (ASTM F2299), BFE at 3.0 micron (ASTM F2101),
Delta P mm H₂O/cm² (MIL-M-36954C)

Breathable Mask Protection

Material Particulate Filtration Efficiency (PFE) and Bacterial Filtration Efficiency (BFE) increases with washing

Machine Washable

Suitable for hot, warm or cold wash cycles. For best results, wash separately in a mesh laundry bag - lay flat or fluff dry for 5 minutes. Machine wash up to 50x with no fabric degradation or reduction in filtration efficiency

Reduces Eyewear Fogging

Reinforced double-wire nose piece ensures a secure and contoured fit

Single-Layer Material

High-performance fabric - STANDARD 100 by OEKO TEX®
The base mask fabric has been tested for harmful substances. STANDARD 100 ensures the base mask fabric was found to be harmless to human health.

This product is a non-medical device

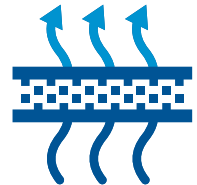

**Efficiency results for white masks independently tested by Nelson Labs®*
